HAND WRAPS:
Used to fill up Boxing gloves,
Provides Support to the Wrist &
Protects from Impact.

NOTES

COMPANY HISTORY

The parent company started soccer ball manufacturing in 1982 which became the foundation of Tempo. Innovation and diversification being at the core of Tempo's culture, a strong need was felt in 1996 for a research & development laboratory with the latest equipment for assuring continuous innovation and better quality. Moreover, in the same year a major addition was made in Tempo's product portfolio and Tempo's strategic team analyzed a great room for sportswear in the market. Therefore, a specialized manufacturing unit for sportswear with the latest machinery and tools was set up by Tempo. Later on, in 2012, a good market potential for fitness and boxing equipment was accessed. Tempo proudly launched its own Fitness unit with the necessary equipment. Today, Tempo is supplying numerous fitness items to different countries and brands around the globe and serves some of the leading brands of Soccer Balls, Sportswear and Fitness items. With growing demand and specialization, a need for capable and technical staff was felt. Tempo is pleased to say that its family has grown to become as large as 250 inhouse employees and almost 1500 stitchers to work for Tempo in Tempo's designated stitching centers. The vision of Tempo's founders and the culture inherited is to sustainably grow the business operations by critically analyzing market gaps and fulfilling these gaps. Customer service is adopted as the basic norm and satisfying the customer needs is the priority. Tempo aims to achieve 100 percent customer satisfaction and strongly believes in a "no-compromise in quality" policy. Throughout this journey Tempo was keen to comply with all the necessary certifications to further endorse its expertise and has been privileged to be certified for certifications.
